

**Screening Form
For
Head, Neck, Facial Pain Patients**

- Headaches
- Earache/stuffy ears/ringing ears
- Pain behind the eyes
- Dizziness
- Limited mouth opening
- Neck, shoulder, back pain or stiffness
- Clicking or grating sounds in TM joints
- Pain or soreness in TM joints
- Locking jaw (opening or closed)
- Unexplained teeth or facial pain
- Numbness in fingers/arms
- Difficulty swallowing

When your patients experience on or more of these symptoms, they should have a thorough evaluation by a dentist trained in TMJ disorder. We will be happy to assist you in the diagnosis and treatment for possible Craniomandibular or Temporomandibular disorders
